CIRCLE CEILING LIGHT

\$5,535

DESCRIPTION

This ceiling lamp projects light upwards, thanks to its unique structure made of three satined natural brass rings enclosing three matte black nickel shades placed in different directions that shield the bulb and diffuse the light creating a striking contrast with the warm tone of the brass. The base and structure is also in nickel with a matte black finish and the rod can be extended with a kit (included) from its length of 45 cm to a maximum of 90 cm. Bulbs excluded. Contract and commercial certifications available upon request.
