CIUFFO JACQUARD ARMCHAIR

\$6,345

DESCRIPTION

Ciuffo chair is made of stained solid mahogany wood. The slightly arched legs outline the silhouette of this chair with sinuous softness, conceived as a pair and unusually made in a right- and left-handed version. The upholstered seat and back confer more comfort. It is covered in a jacquard fabric whose decoration creates a space with a celestial atmosphere. Nature and architecture coexist, where cypresses, winged creatures, and metaphysical shapes recompose the visual worlds of illustration.
