LIGHTING : TABLE LAMPS

Sigma L2

CL1945 TABLE LAMP

\$7,310

DESCRIPTION

The central body of this exquisite and unique lamp consists of one sinuously curved iron tube, off of which a multitude of smaller iron tubes extend horizontally. At the base, a round platform features a circular element on its top. All iron elements were soldered together by hand and they can be plated either in gold or chrome depending on the client's needs. The rectangular shade is in brown silk and it can be adorned on its interior in wither gold or silver for striking reflections.
