CLEO BEIGE ROCKING CHAIR

\$2,490

DESCRIPTION

The combination of soft curves and simple volumes reveals bold geometries that distinguish this timeless rocking chair designed by Marco Acerbis. Part of the Cleo Collection, this rocking chair has a demi-lune silhouette with sinuous, sweeping arms that flow into the flat seat. Its frame in teak has tapered legs and two rectangular foot panels that allow for gentle rocking. The rich grained of the wood contrasts with the beige-hued upholstery for a strong visual effect. The pillows are removable, washable, and resistant to atmospheric agents for both indoor and outdoor use. Contract and commercial certifications available upon request.
