Caruzzo e Fabbro

CLESSIDRA VASE TURQUOISE AND BLUE

\$480

DESCRIPTION

Color is the key player in this remarkable vase, where intensity and hues, combined with the sculptural silhouette, make this object especially precious. Designed by Mauro Fabbro, the stylized hourglass shape seems to be animated by a movement of fluid torsion accentuated by the central blue color. This vase is made entirely by hand using half refractory white fire clay and decorated by hand with turquoise and blue enamels, with a glossy glazed finish through three firings at 970° C.
