CLESSIDRA VASE YELLOW AND BLACK

\$480

DESCRIPTION

This superb vase by designer Mauro Fabbro is a study in simplicity with its stylized hourglass profile mixed with bold colors. The broadening diagonal movement starting at the center is reminiscent of the struggle of transformation that inspires the entire Clessidra collection. Handcrafted of half refractory white fire clay, its dynamic silhouette is highlighted by the hand-decoration in yellow enamel with a black irregular band at its center, finished with a glossy glazing through double firing at 970° C. This contemporary accent will enliven a dining table, a console, or an entryway.
