CLOUD WHITE UMBRELLA STAND

\$580

DESCRIPTION

This elegant and timeless umbrella stand was designed by Gebrüder Thonet OHG in 1890 and more than a century afterward its silhouette is relevant and eye-catching, creating an elegant shape that will add a refined and unique touch to a modern or classic entryway. Its structure was crafted of beechwood that was gently curved using steam to obtain the elegant open structure with a white lacquered finish that curls down in the natural-finished feet.
