CLUBS THRONE CHAIR

\$3,760

DESCRIPTION

One of twenty designs in the Throne collection, this chair features a combination of larch, Swiss pine, pine, and fir all sourced from 16th century homes, where they were part of the floor. Shaped in this unique design, evoking the silhouette of the clubs, the wood is protected by real beeswax polish and shows the signs of passing time in one-of-a-kind marks on its surface. Either alone, to accent a bedroom, entryway, or study, or along with other pieces in the same collection to serve as dining chair, this will be a precious addition to a modern home.
