**COAST TABLE**

\$18,955

## DESCRIPTION

A striking combination of noble materials arranged in a modern and bold silhouette, this table is an eye-catching object of functional decor that will stand out in a contemporary dining room. The brass base features linear elements joining in the center to function as a footrest and at the top to support the superb slab of Calacatta marble with round corners. The timeless color combination of these two materials is further enhanced by the one-of-a-kind veins of the precious stone.
