COBALT BLUE VASE #2

\$480

DESCRIPTION

This stunning vase is part of a series of cylindrical pieces hand-decorated with a glossy glaze, ideal for displaying tall branches and flowers in a modern and coastal-inspired interior. Fashioned using the slab technique, this porcelain vase has a white background with a cobalt blue semicircular detail around the base and five gold circles of ascending size arranged in a vertical line. The motif is rendered by pressing the porcelain onto a flat plate with color pigments before shaping the piece into its final shape. The result is a uniform texture that gives the vase sophisticated allure.
