COBALT BLUE VASE #8

\$550

DESCRIPTION

Refined and modern, this superb vase can be displayed as a standalone piece with long-stemmed flowers to create the perfect statement in a modern or coastal-inspired decor. Handmade using the traditional slab technique, this vase is crafted from a rectangular slab of clay wrapped around a cylindrical mold. The graphic design features a series of cobalt-blue circles with golden arrows on a white background. The uniform texture is obtained by placing the pigments onto a flat surface and pressing the porcelain slab overtop top before wrapping around a cylindrical mold into its final shape.
