COBWEB BLANKET

\$1,225

DESCRIPTION

Aptly named after the asymmetrical web of straight elements that creates the complex jacquard motif adorning its surface, this blanket was crafted of knitted textiles, combining 70% merino carded wool, 25% cotton, and 5% cashmere. Weighing 1.2 kg, this piece is bright and warm, elegantly adorning a contemporary or eclectic bedroom, imbuing it with a sense of movement that is given by the gold and silver decorations over the natural-colored background.
