**COCO CONSOLE BY ELENA CUTOLO**

\$2,340

## DESCRIPTION

A tribute to Coco Chanel, the iconic French fashion designer and her "maison" in rue de Cambon where her legacy lives on, this console incorporates style and color into a simple, contemporary silhouette. Made of aluminum, the imposing L-shaped legs extend from the corners of the rectangular shelf decorated with geometric lines and squares in a basic palette of white, black, and blue. This sharp and bold look of this impressive console is softened by the use of timeless colors and patterns, making it the ideal accent piece in a contemporary entryway or living room.
