CODICE A BARRE TABLE BY DANIELE AND MASSIMO SABATINI

\$4,680

DESCRIPTION

Streamlined profile adds a clean, contemporary edge to any living room. This captivating table, designed in 1997 by Daniele and Massimo Sabatini for UpGroup, has a name that reveals its personality: barcode, the optical, machine-readable representation of data that describes the object that carries it. Similarly, its bold scale and color pattern, clean lines and geometric profile crafted of black Marquina and white Carrara marbles define a striped pattern that evokes the barcode. The optical effect of the sculptural table make it a statement piece that will add a sculptural accent to a living room, entryway and even office.
