COFFEE SET WITH FOUR PIECES AND TRAY

\$52,800

DESCRIPTION

This sophisticated coffee set entirely made in solid silver will bring a touch of lavish elegance to any table. It is accompanied by an oval tray with rectangular ornate handles and a delicate decoration that runs throughout its edges, inspired by the neoclassical empire style. The same grandeur adorns the other pieces: a tall coffee pot, a tea pot, a sugar bowl, and a creamer, all with a striking golden finish inside.
