COFFEE TABLE WITH CALCATTA MARBLE

\$7,350

DESCRIPTION

An exercise in balance and sophistication, this coffee table is a precious complement for a classic or contemporary living room. Its structure in brass with a satin finish comprises four legs crossing at the base and slightly curving on the sides to give a dynamic effect to the minimalist silhouette. The generous round top is in precious Calcatta Oro marble that, with the striking natural pattern of its veins, adds a one-of-a-kind decorative accent to the piece. This coffee table can be combined with the other pieces in the same collection.
