Casa della Cornice

COLONNA FIORENTINA WALL MIRROR

\$360

DESCRIPTION

This unique frame was made of wood that was carved using traditional methods to create long grooves that run parallel along its four sides. At the corners, metal inserts add a different texture to the piece, giving it a modern accent. The wood is finished with precious silver leaf that highlights its grooved texture. Timeless and sophisticated, this frame is a versatile piece that can be displayed either alone or with others from the same designer for a dynamic effect.
