## COLONNA SERIZZO VASE

\$685

### DESCRIPTION

Part of the Rovinette collection, this vase is one of three Colonna pieces that poetically evoke the shape and elegance of a column ("colonna" in Italian). Entirely hand-turned from a solid piece of precious Serizzo stone, this minimalist piece has a sophisticated allure that will enrich a modern decor with its geometric silhouette and the striking pattern on the marble's surface. This elegant piece is a contemporary interpretation of architectural ruins from the classical era and will enliven any room it is displayed in, either alone or combined with the other pieces in the same series.
