COMEQVANDOFUORIOPIOVE PLAYING CARDS CASE

\$440

DESCRIPTION

Fashioned of white Carrara marble with a sliding mahogany drawer, this elegant case comes with a deck of 54 poker cards printed on duplex paper by Modiano. The whimsical name of this piece derives from the catchy phrase ("like when it's raining outside" in English) used to easily remember the value order in the deck of French cards, so the initials Come Quando Fuori Piove create an acronym for the value order of the seeds starting from the most powerful: Cuori (hearts), Quadri (diamonds), Fiori (clubs), and Picche (spades).
