DESCRIPTION

There is more than meets the eye with this sublime sculpture. Hand-fashioned of aluminum, the sculpture takes on the shape of two ears joined together at the helix. The subtle curves, folds, and creases result in a finished piece that exhausts the dimensionality of the medium. The sculpture symbolizes how listening to one's own soul can sow distance between two individuals. Sophisticated in its simplicity, this sculpture artfully demonstrates superb craftsmanship and minimalist design aesthetic, suiting any modern or industrialist interior.
