CONSOLE WITH MARBLE

\$10,460

## DESCRIPTION

A study of form and function, this lavish console will infuse an industrial, contemporary touch in any interior decor. The elongated rectangular silhouette boasts a Cappuccino marble top and is supported by an open frame fashioned of iron with a black nickel finish. The frame is characterized by a series of gold-finished sword accents arranged in alternating directions on each tall leg: this unconventional design detail adds a visual twist to the piece, the lustrous gold finish striking complementing the metallic black finish and red and black marble striations.
