CONTESSA INDACO SET OF 6 DINNER PLATES

\$690

DESCRIPTION

This stunning set of six dinner plates part of the Contessa collection will be a superb addition to a classic dinner table, especially if combined with the other items in the same series. Inspired by Empire style decorations, the turquoise rim that adorns its white porcelain background is applied with the precision of airbrush motifs, with the pattern created in negative and the excess color brushed away by hand. This process leaves room for the precious gold trims, which can be also made of platinum or the signature Richard Ginori white, please ask the Concierge for details.
