CONVIVIO DIAMOND LONG PINK TRAY

\$160

DESCRIPTION

Part of the Convivio collection, introduced at Milan Design Week 2018, this long tray will make an elegant statement in a contemporary or classic decor, adding a magnificent decorative accent on any occasion. It was crafted entirely of pink Norvegia with a sophisticated, elongated shape featuring an irregular hexagon with two multi-faceted sides that gives it a light and modern flair. Entirely handmade, this piece is surprisingly light and easy to handle. Its polished surface contrasts with its opaque edges. It can be combined with its version in black Marquina marble for a stunning effect.
