CORTINA LOW COFFEE TABLE

\$3,625

DESCRIPTION

This elegant and sophisticated coffee table is part of the Glass&Wood collection and it can stand alone, as a striking piece of contemporary decor, or it can be paired with the Cortina Tall Coffee Table, for a dramatic effect. The table is made of a round top consisting of two layers of glass enclosing a section of tree slice, resting on a three-leg structure in metal. The metal can be finished in a variety of ways, including finishes that match the wood at the top.
