Casarialto

COTISSO TOTEM BLUE #5

\$930

DESCRIPTION

Cotisso Totem is a Murano glass block, pure and monochromatic, obtained by breaking the crucible at the end of the process of manufacturing the glass of a particular color. It is a handcraft unique piece, part of the Casarialto Atelier project. The blocks obtained through this process are then melted again in the furnace, or used in the realization of artworks, both aesthetic and decorative. The result is a unique and modern sculpture interesting to view from every perspective, made in Murano.
