CRATERE BOWL

\$160

DESCRIPTION

Named after the Italian for crater due to its distinctive shape reminiscent of a volcano's mouth, this handcrafted ceramic bowl flaunts a singular design of speckles and crackles, the latter obtained as a result of the ancient Japanese Raku pottery technique. The white look on the interior - accented with crystalline - seemingly overflows on the external surface, which is marked by an intense dark-gray finish.

DETAILS & DIMENSIONS

- Material: Ceramics
- Dimensions (in): W 7.09 x D 7.09 x H 2.36
- Dimensions (cm): W 18 x D 18 x H 6
- Handmade In Italy
