CROCUS ORTENSIS DINNER PLATE

\$110

DESCRIPTION

Decorated by hand on a clay plate with a glazed surface using the traditional "engobbio" technique, this exquisite dinner plate is a functional work of art that will imbue with eclectic dynamism a modern interior. It is part of the Blue Bestiary collection, inspired by a manuscript on herbs published in Northern Italy around 1350-1375, by "The Book on Imaginary Beings" by J.L. Borges, and by the artist's trips to the Dolomites. On the white background a Crocus Ortiensis, a plant commonly known as saffron crocus, is depicted using blue, light grey, and black.

DETAILS & DIMENSIONS

- Material: Ceramics
- Dimensions (in): W 9.45 x D 0.59 x H 9.45
- Dimensions (cm): W 24 x D 1.5 x H 24
- Handmade In Italy
