CRYSTAL BOWL IN AMBER AND BLUE

\$2,710

DESCRIPTION

Great visual impact and striking color combination are the hallmarks of this exclusive footed bowl. Made of crystal with the traditional 'incamiciato' technique - where layers of clear and colored glass are superimposed and sometimes submerged in gold leaf - this piece combines the most elegant, embellishing details. Irregularly shaped blue decorations on the rounded golden silhouette and the octagonal flared amber foot add character to this exclusive bowl that will make any table special.
