CRYSTAL BOWL IN AMBER AND GREEN

\$1,650

DESCRIPTION

This majestic crystal bowl features a deep green and amber color that is highlighted by the large honeycomb pattern that adorns its surface. The decoration is executed with 'sabbatura' technique, in which a jet of sand and air erodes the surface of the incamiciato glass body to create a stunning visual effect. Entirely handcrafted of blown, beveled crystal, this is a piece that will be noticed for its striking presence either at home or in an office.
