CRYSTAL COLUMN IN CLEAR AND GREEN

\$3,710

DESCRIPTION

Doric-inspired column reminiscent of the pillars that grace the façade of Italian buildings, this crystal reproduction exudes the elegance of the ancient past. Using the sandblasting technique, the 'incamiciato' green glass is engraved with a spiral pattern using a jet of sand and air that erodes the surface revealing the clear layer underneath. The opulence of this stunning decorative piece is enhanced by the contrasting horizontal details at top, center, and bottom. Whether to support a decorative vase or a lamp, this piece will bring luxury into any corner of the home.
