\$2,670

### DESCRIPTION

This crystal vase is the result of the unparalleled craftsmanship, expertise, and meticulous attention to detail that distinguish Nuova Cev. Combining the purity of crystal and refined glass techniques, the leaf decorations are hand-executed on the 'incamiciato' green and amber crystal with the sandblasting technique that allows the engravings to emerge in contrasting colors from the glass surface. The flared foot connects to the round body with a delicate amber ring. This vase makes a stunning accent when filled with fresh flowers, brightening any corner of the house.
