CRYSTAL LEAVES VASE IN AMBER AND BLUE

\$2,480

DESCRIPTION

Inspired by a natural motif, this tall crystal vase showcases a delicate decoration of branches that emerges from the golden 'incamiciato' crystal flute body. This striking visual effect is obtained with a glass technique called "sabbatura" that uses a jet of sand and air to erode the golden glass surface, revealing the deep blue layer underneath. This contemporary piece will provide a touch of classic elegance, either displayed with tall flowers or by itself as a stunning accent piece.
