CRYSTAL VASE IN CLEAR AND GREEN

\$9,040

DESCRIPTION

The delicate portrait of a geisha on the backdrop of a Japanese-inspired landscape is featured on the large oval at the center and, in smaller scale, on the neck of this exquisite bottle-shaped vase. Using the sandblasting technique, the 'incamiciato' green glass is exposed to a jet of sand and air that erodes its surface to create decorations that seem to emerge, revealing the clear layer underneath. With its classic silhouette and meticulous detailing, this gleaming crystal vase splendidly reflects the light, adding a touch of elegant brilliance to any decor.
