CUBICK CHEST OF DRAWERS

\$9,145

DESCRIPTION

This striking chest is sectional and can rotate. It features five drawers resting on a base and it was designed by Paolo Nicolò Rusolen. The base is in Canaletto walnut wood, while the other finishes (both for interiors and exteriors) are: natural canaletto walnut, dark brown velvet, golden brown velvet, plain oak wood and plain maple. Thanks to its rotation and the different finishes, the effect is of modern dynamism.
