Kiasmo

CURVE II VASE

\$1,870

DESCRIPTION

This elegant and modern vase is part of a collection of pieces designed by Vincenzo D'Alba for Kiasmo. The small plinth base supports an elongated cylinder whose smooth surface is painted orange. The abstract decorations that cover the outside of the piece resemble a myriad of drops in orange, brown, and black. The traditional craftsmanship of this vase combined with its contemporary style makes it a timeless object that can be displayed alone or paired with others by the same designer.
