CZECH WHITE CHAIR BY HERMANN CZECH #2

\$1,274

DESCRIPTION

This stunning armchair will be an eye-catching addition to a monochromatic dining room, an eclectic entryway, or a modern study. It was designed in 1994 by Hermann Czech. A celebration of Thonet's distinctive steam-bent solid beechwood chairs, this piece revisits these traditional designs by boasting a frame with a single curved back, elegant armrests, and arched supports for the plywood seat. Entirely lacquered in white, it is also available with the tips in natural beechwood for a striking contrast. Please consult the concierge for details.
