Fratelli Boffi

D/VISION.1 CABINET

\$18,295

DESCRIPTION

A striking piece that will make a statement in a modern or eclectic home, this superb cabinet deconstructs the traditional square shape by diagonally cutting it and separating two parts of the same piece, marked by a change of color. A work of contemporary art part of a limited edition of 10 pieces, this cabinet is made of wood with sculptural legs accented by glossy brass tips. The disconnected structure features a lower and an upper section with two different finishes.
