D/ZEN LARGE COFFEE TABLE BY CTRL ZAK

\$2,625

DESCRIPTION

Inspired by the spiritual and physical balance of Zen practice, this captivating side table is marked by a bold geometric silhouette. The bamboo frame has a steel top with a mirror-polish finish and is supported by an aluminum stick in a seemingly impossible balance. The bamboo is chosen for its connection with the Japanese culture, and the supporting stick is hand forged with a pattern that evokes a tree bark. Available also in a smaller size, only natural materials, not altered by chemical paints or coatings, were used to craft this superb work of functional decor.
