**DAL TRAMONTO ALL'ALBA COFFEE TABLE**

\$4,410

## DESCRIPTION

This superb coffee table brims with contemporary, sculptural allure. Part of the iconic Kripto Collection, its structure is made of laser-cut, hand-welded steel sheets that undergo a complex process similar to the one employed for luxury cars. The varnishing resulting in a brown, velvety finish comprises three steps before the application of transparent glaze and a final, hand-applied polishing in five steps. This piece is part of an exclusive, limited series of only four pieces with bases covered in leather. Please contact the Concierge for other color options.
