DAMASCO I VASE

\$470

DESCRIPTION

This vase by Vincenzo D'Alba is made of limestone and rests on a black marble base. The black and 24k gold leaf spots that adorn its surface are hand applied and create a color-block decoration that is enlivening and sophisticated. The linear, elongated shape rests on a black marble plinth base and will be a splendid vessel to display floors in a modern entryway, living, or dining room. For a dynamic showcase, it is possible to combine this with other pieces from the Damasco vases.
