Elena Carozzi

DAMASCO WALLPAPER

\$360

DESCRIPTION

A superb addition to both a traditional interior and a contemporary decor, this wallpaper was painted by hand with pigments and glue. The refined decorative pattern is inspired by the damask textile motif, reinterpreted with a modern aesthetic. The repetitive design is created with different brush strokes that give it the appearance of a fresco before restoration. Warm and welcoming, this wall decoration is priced per square meter and is available in different hues. It needs a final hanging to the wall - please ask the Concierge for details.
