**DAME SMALL BLACK, AMETHYST AND RED BOTTLE BY LUCIANO GASPARI**

\$2,590

## DESCRIPTION

Designed by Luciano Gaspari for Salviati, this piece is part of a trio of decorative glass bottles, featuring vibrant colors and sinuous shapes with a distinctive stopper for each piece. Black and amethyst brushes of color decorate the clear glass body, while colorful "wings" accent both sides to add a captivating contrast. Made of vibrant orange-red and black glass, these decorations are applied when the glass is still hot and skillfully cut out with scissors to achieve such original texture. The stopper is made of an amethyst-colored globe with orange-red decorations.
