DANILIA CERAMIC CENTERPIECE

\$170

DESCRIPTION

Inspired by stunning designs found by nature and particularly the mesmerizing geometries of shells, this centerpiece was designed by Chiara Andreatti and crafted entirely of ceramic. The elongated top rests on a low base and its smooth surface is enlivened by the hint of a fold at its center that adds textural dynamism to the piece. It can be used to display collectibles or fruit in a rustic or modern home, or combined with other items in the Danilia and Tellina series for a dynamic effect.
