**DARK & LIGHT JEAN STACKABLE TABLES**

\$4,390

## DESCRIPTION

A creative concept born as a tribute to Hans Arp (Jean is the name he used when he spoke in French), these tables are part of a collection of asymmetrical and stackable tables inspired by the artist's abstract compositions. Shown at the 2018 Salone del Mobile event, this set is composed of two tables of different shapes with lacquered wooden tops and double-tubular brass legs: the dark one has a dynamic silhouette with broken lines softened by an irregular bending, and the smaller, light table has a trapezoidal shape. When stacked they coexist perfectly together, adapting to any interior need.
