DASAR JR GRAY DINING TABLE

\$3,650

DESCRIPTION

This exquisite dining table is a bold and refined choice for a contemporary interior, where it can be used as a superb dining table or as a striking desk in the office. Fashioned of metal, the top is a single piece with a clay finish in charcoal gray, its rhomboid shape supported by a prism-like base made of a continuous metal sheet to create a modern, triangular silhouette. The table's base and top use geometric elements to obtain a dynamic effect that will not go unnoticed. The tone-on-tone effect is achieved with a masterful application of the satin lead finish on the base.
