DDUMA SMALL SCULPTURE

\$9,480

DESCRIPTION

This sculpture is a unique objet d'art that transforms the space around it, interacting with it, thanks to a small LED light that projects the shadow of its decoration onto the surrounding walls. The piece is in bronze with an antique finish and is adorned with a one-of-a-kind embroidered motif. Its base is in bronzed brass that can also be crafted of polished brass with a glass finish. The sculpture itself can also be made of white bronze. Please ask the concierge for details.
