DE CARLI BEDFRAME

\$15,445

DESCRIPTION

An exercise in minimalist simplicity, this bedframe is a re-edition of the 2016 original design by Carlo de Carli. Crafted entirely of solid oak wood, the structure features a full headboard and footboard defined by a pleasing angle that encloses the slatted platform for a Queen-size mattress (not included). The uncluttered sleek line and geometric forms of this piece focus strongly on form and functionality without compromising on style.
