DESAFINADO 7-LIGHT CEILING LAMP

\$3,160

DESCRIPTION

Desafinado is a collection of contemporary lighting pieces with an elegant and essential design in which glass becomes the protagonist. Hanging from a square metal structure with brushed nickel finish mounted directly on the ceiling, nine spheres of clear satin, mirrored and pulegoso (from Venetian dialect word pulega, "bubble") mouth-blown Murano glass are arranged at different lengths to create a mesmerizing visual experience. Entirely customizable by choosing different colors for the glass, number of lights, and shape and finish of the metal ceiling plate.
