*Multiforme*

**DIAMANTE CHANDELIER**

\$5,440

## DESCRIPTION

This exquisite piece is a superb mix between traditional design and modern flair. The elongated body of its vertical structure, painted in a striking black, is accented with clear prisms obtained with the traditional "rostrato" technique, in which the master glass maker pulls strings of glass while still hot to create a diamond shape. From this vertical structure stem a series of arms culminating in more diamond-shaped decorations supporting the lights. Essential and modern, this piece can be customized by adding more layers and different colors.
