DIAMANTE VASE BY ETTORE SOTTASS

\$7,920

DESCRIPTION

This vase, made entirely in solid silver, is part of the Diamante collection, designed by Italian architect Ettore Sottsass. The simple, symmetrical shape of the vase is contemporary and minimalist and is enriched by the noble material it is made of. The result is a timeless piece that can be displayed alone, or along with the other pieces by the same designer originally created for Del Conte and now part of the Braganti collection.
